EDUCATION

(2018-2021)
SMP BUDI UTOMO

-

(2021 - 2024)
SMK KRIAN 1
Department of Software Engineering

ABILITY

- 3D Design
- HTML, CSS
- Python

PROFILE

I am an 18 year old student studying at SMK KRIAN 1. I have a great interest in coding and 3D design. I have studied both of these fields since I was in Vocational High School. In addition to coding, I also have an interest in 3D design. I started learning 3D design by using blender software. I often use my coding and 3D design skills to create School projects. I once created a SMK mockup, a web application, and a keychain.

PENGALAMAN

Design 3D (2022 - 2023)
- Making 3D Mockups of SMK KRIAN 1 School
- Creating a Keychain 3D Design

PKL Internship
- Design For Posts An IG
- Design mockup
